

TELWARES AND INVOICE INSIGHT PARTNER FOR ENHANCED TELECOM EXPENSE MANAGEMENT SOLUTIONS

Combination of Strengths Brings Together Deep Consulting and Managed Services Experience with Strong Technology Capabilities

PARSIPPANY N.J., MAY 26 2009 /PRNewswire/ -- Telwares Inc., a leader in the telecom and IT infrastructure sourcing and expense management industry, today announced they will embed new technology in their solutions portfolio for expense management, supplied by Invoice Insight.

“This technology offers key advantages including wire line and wireless expense management integration, and a comprehensive and intuitive end user portal” said Charlotte Yates, CEO of Telwares. “When surrounded and delivered by the Telwares client engagement teams, it will profoundly increase the standard for value in the marketplace” added Yates.

Telwares will leverage their 15 years of successful experience in strategic sourcing, consulting, and ongoing expense management together with a technology platform that will drive greater expense visibility, and provide automation around key business processes. In addition, clients will benefit from a highly integrated, global telecom and IT expense management solution.

“We are very proud that Telwares, experts in the expense management industry, have chosen Invoice Insight as their strategic partner,” said David Spofford, CEO, Invoice Insight. “We look forward to assisting Telwares in achieving their goals and future vision for the marketplace.”

ABOUT TELWARES, INC.

Telwares is a leading telecom, IT infrastructure, sourcing and expense management company enabling enterprises to most efficiently source, procure, and manage their telecom and technology investments. Telwares provides expertise and technology to clients that quickly leads to significant savings and efficiency, supporting better purchasing decisions, and leveraging their technology to be more competitive and profitable. Headquartered in Parsippany, NJ, Telwares actively supports hundreds of the most recognized companies in the world, representing nearly every industry. For more information, visit www.telwares.com.

ABOUT INVOICE INSIGHT, INC.

Invoice Insight is the leading provider of fixed and mobile expense and asset management solutions delivered in the Software as a Service model. Invoice Insight's model allows for rapid implementation, low cost of ownership, and an agile business model more akin to a service relationship than to a traditional software deployment. Invoice Insight provides technology and outsourcing solutions to the mid-size and large commercial markets, as well as to government users of telecom services.
